Recent Successes

- In 2008, Nathan successfully completed a national licensing campaign for one of the fastest growing stored value card/money transmitter companies in the United States. The multi-million dollar transaction involved more than a year's worth of preparation, negotiations, filings, and administrative hearings. Today the company is operating on a national level and flourishing in the emerging stored value card industry.
- In January of 2009, Nathan assisted in the re-acquisition of a prominent regional paper products distribution company by the company's founding family. This transaction involved the sale of all of the company's assets, financial restructuring, complex redemption of shares, and the removal and appointment of a new management team.
